

NextEra Engineering Solution

(Excellence for Tomorrow)

NextEra Engineering Solutions is a forward-thinking company committed to providing innovative, reliable, and cost-effective engineering service. With a customer-first approach, we combine advanced technology, practical expertise, and creative solutions to deliver excellence across industries. At NextEra, we believe in building strong partnerships with our clients. We don't just provide solutions—we create value. From concept to execution, we work hand-in-hand with our clients, ensuring their objectives are achieved with efficiency and innovations. It is positioned as a trusted partner for industries looking to embrace the future of engineering.

VISION

To be a trusted engineering solutions partner. driving innovation and sustainable growth for industries worldwide.

MISSION

To deliver innovative and reliable engineering solutions that empower industries to grow. We are committed to quality, integrity, and long-term client success.

VALUES

- INNOVATION
 - HONESTY
 - COMMITMENT
 - PASSION
 - QUALITY
 - RESPONSIBILITY
- 

PRODUCT

-  Robotic Automation (Robotic Cell for IP, Bumper, Door Trim)
-  Leak Testing Machine.
-  Hydraulic, Hydro-Pneumatic, Punching Machine.
-  Bumper Sensor Testing Machine.
-  Ultrasonic Welding SPM.
-  Infrared Hot Plate Welding Machine.
-  Heat Stack Welding SPM.
-  Vision Based Inspection Systems.
-  Industrial Trolley
-  Assembly Line Automation.

Ultrasonic Welding Machine

Robotic Welding Cell

Industrial Trolley

Sun Visor Heat Stack Welding Machine

Bumper Punching Machine

Infrared Hot Plate Welding Machine

Beading Machine

Assembly Work Station

Vision Based Inspection Systems
